The Uvex® Difference

Engineered specifically for industrial applications where hazards are present, our products are designed for fashion but built to perform to ANSI requirements.

Superior service plays a main role at Uvex Rx. We believe it is important to treat everyone the way we would like to be treated...it's that simple.

Quality is a way of life at Uvex Rx. We are strict adherents to the ANSI Z87.1 Standard because this standard is the most stringent requirement. We test and re-test every product on a regular basis and make those results available to you any time you want or need them...no other safety Rx eyewear company does this.

An important component of all safety eyewear programs is prescription safety eyewear. If you have employees who require safety glasses outfitted with an individual prescription in them, Uvex Rx is your best resource to finding an optimal solution.

Uvex Rx works hand-in-hand with hundreds of safety optical laboratories in the Americas that can support your needs in building an efficient, cost effective and convenient safety prescription (Rx) eyewear program for your employees. *Here's how:*

- Assess Your Requirements
- Assist in the Choice of a Supplier Lab
- Provide Training Materials
- Support You with Seasoned Sales Professionals and Customer Care Personnel

RECENTLY DISCONTINUED ITEMS

EXT1	All sizes and colors

Replacement Temples:	All sizes and colors in Titanium, Exclusive, SWRx and Trendsetter collections.

THE N-TITE® SYSTEM

The N-Tite system is designed to increase lens retention so that employees who work in environments where hazardous impacts are possible are protected in accordance with ANSI Z87.1 Standard guidelines.

This system is now available on selected products as indicated in this 2010 Product Guide.

All Uvex Safety Rx Eyewear meet the ANSI Z87.1 Standard and are regularly tested on an ongoing basis to ensure continuing compliance. Actual test data is made available to anyone requesting it on every product we provide to our customers.

Titanium Collection

The Titanium Collection represents our very best offerings designed to protect and look fashionable at the same time. Made of the very best materials for strength, durability and lightweight comfort, these styles will last while satisfying esthetic and comfort requirements for a very long time.

SWRx Collection

The SWRx Collection, introduced in 2005, has aggressively out sold all of our other styles. Known for aggressive designs and superior coverage, this group of safety frames has set a new standard for “being in the right place at the right time.” To see an industry reference leader, be sure to take a look at the SW06 and SW06E. And, if you want to see what’s going to be the next block buster, check out the SW07.

Exclusive Collection

In the Exclusive Collection, you'll find the styles you'd expect to see in the world of retail dress eyewear. This is where you'll see safety frames in a rimless design that do not look like they should be safety frames but, in fact, test extremely well against the stringent ANSI Standard for impact protection.

Trendsetters Collection

The Trendsetters Collection has represented one of our best selling collections since its inception back in 2000. This group of frames captures the essence of what is popular today, and like most trends, has a longer life than fads which are here today and gone tomorrow. Constructed of stainless steel, they are built to last...and they do.
